

POST-DOC Researcher; NCN-OPUS21 (DEC-2021/41/B/HS3/03115)

Requirements:

1. Ph.D. in archaeology or geological, geographical sciences obtained outside the University of Wrocław and not earlier than seven years before the beginning of employment;
2. Knowledge and skills in the domain of archaeological or geographical/geological research, documented by peer-reviewed scientific publications;
3. Knowledge of English or Spanish;
4. Experience in conducting archaeological or geographical field research of open sites, as well as in studies of archaeological or geological materials;
5. Knowledge of the Geographic Information Systems (GIS) methods.

Task descriptions:

1. Post-doc position will be financed by National Science Centre (Poland), within research project entitled: Atico Valley-Peru in the pre-Columbian era. Development and intercultural relations between the communities of the mountain and desert area of the southern of Peru; headed by prof. dr hab. Józef Szykowski, University of Wrocław (Poland);
2. The Person will be responsible for participating in archaeological/geoarchaeological fieldworks, collecting data, analyses of the obtained archaeological materials, elaboration of finds, writing the field reports, as well as correlation of archaeological and environmental studies. An additional task will be disseminating the results of the project by preparing research publications and presenting obtained data at international conferences;
3. The Person will be involved in fieldworks and laboratory analyses in the Republic of Peru;
4. The Person will participate in interdisciplinary research endeavour, which aims at identifying and analysing the pre-Columbian settlement in the Atico basin in the northern part of the Arequipa department in Peru. During the planned research the course and character of settlement and cultural changes taking place in this region will be analysed in spatial and temporal aspects. At the same time, for each period the degree and role of various external influences (interactions/migration) in the formation of the region's cultural mosaic will be determined. This applies to the influence of communities living in the areas south and north of the Atico Valley, as well as those from the high mountain area.

Task and conditions of employment:

1. Workplace: Faculty of Historical and Pedagogical Sciences, University of Wrocław (Poland);
2. Starting date: May 2022;
3. Type of employment: Employment contract for fixed period (max. 48 months);
4. The amount of funds for employment in PLN: 120.000 per year.

Required documents:

1. Cover letter addressed to the project principal investigator with the justification of interest in the project;
2. CV containing information about research career and participation in research projects;
3. List of publication;
4. A copy of the diploma confirming Ph.D. degree;
5. Letter of recommendation;

6. Consent to the processing of the following personal data – in accordance with Art. 6(1)(a) of General Regulation on Personal Data Protection of April 27, 2016 (*Journal of laws of the EU L 119/1* of May 4, 2016): "I agree to the processing of personal data other than the following: first names and surname, date of birth, place of residence, mailing address, education, the course of previous employment, included in my job offer for purposes of current recruitment".
